# Introduction of New Technology is Key Success of 6th International Police Expo

# EXHIBITORS

## Participation From Countries:

The exhibitors showcased very innovative equipment and technologies where audience was quite impressed from them due to level of advancement they carried. Latest technologies from Singapore, Israel, USA, Taiwan, UK, Ukraine, UAE, Sweden, Poland and other leading police & defence products manufacturing nations showcased at International Police Expo 2021. There were more than 80 companies who displayed their innovative products and technology for the Police and other Armed Forces of India.

Expo brought the innovative technologies, firearms, armored vehicle, ATVs, drones and security equipment for Police, CAPFs and CPOs of India.

During the exhibition, the joint venture protective carbine (JVPC), developed by DRDO and Kalyani Industries, a 5.56x30mm carbine has already started replacing the costly Heckler and Koch MP5. The JVPC has been indigenously made in India is an excellent replacement for existing sub machine guns (SMGs). A new bullpup assault rifle specialized for close quarter combat (CQB) and a mid-range sniper rifle has also been showcased.

In mobility section, Kalyani Group displayed its latest armored vehicle which can withstand a 50kg TNT blast from the side and can also carry over 11 personnel. The Sherp, a Ukrainian world famous all-terrain vehicle, is going to be manufactured near Mohali in Punjab, was also displayed. The vehicle can go to any terrain and can swim on the water regardless of its depth.

During the expo few key highlights were the introduction of caged drones which can be useful in rescue of the people during landslides or any mishap in the canals or caves by Indo Wings and Birdseye Assets. The special feature of these drones are that even with getting in contact with any surface, it will keep moving without loss of any visuals.

Police needs modern technology for digital forensic, cyber security and advanced forensic technology for the crime investigation. In this section A US company, Zimperium, who claims that it can protect organizations and individuals from Pegasus, also displayed its technology for the first time in India. Other players like Celebrite from Israel, Credence Security, Cyber Armor from Dubai etc

Evitar Systems displayed its system which can make any small arm in Machine Guns was a centre of attraction where any small arm like GLock is fitted inside the system and it become a combat ready weapon. The JSC "Kamenskvolokno" from Russia displayed its bullet proof solutions designed for around-the-clock comfort for the users.

Tata Advanced System also displayed its R-VTOL for the forces where this tactical surveillance system can make Indian border surveillance more efficient. The expo has kept it legacy intact by introduction of the modern products and technology from more than 15 countries.

Few Other technologies Which were also displayed like CBRNE Detection, Speed Gun, Thermal Imaging, Night Vision and Infrared Camera, Roto Moulded Military Grade Cases, Handheld Explosive and Drugs Detection, Cyber Security, Perimeter Intrusion Detection Systems, Mine Detectors, Electronic Sirens, Safety Shoes, Fire & Rescue Products, Automated Surveillance Drones, Arms & Ammunition, Non Lethal Tear Smoke Munitions & Traffic Solutions etc...
