

10-11, MAY 2018, Pragati Maidan, New Delhi-INDIA

4th International Police Expo - India's event on nation's internal security and Policing is getting huge and exclusive this time.

Stalwarts of the Security Industry are going to congregate at New Delhi on the very special occasion of International Police Expo. India provides a natural hub for a Security business in Asia, with ongoing police modernization.

International Police Expo is an international platform for police equipments and tools. The event provides various products like Police Welfare & Safety, Technology & Equipments for Attaining Basic Aims of Policing etc. It is the only exhibition which is focused and an interactive platform where the police & other forces representatives of different nations and equipments suppliers can meet their business opportunities related to forces fitness, training, and protection and rescue equipments. The event also provides seminars and training sessions for the police officials and various conferences dealing to resolve the common issues faced by the police.

Mr. V K Bansal, organizer told media persons that Proud fully International Police Expo is all set to roll out its 4th season during 10-11 May 2018 at Pragati Maidan. This much awaited annual event exclusively for Police and Security personnel has two more attraction to watch. 3rd edition of Home Land Security Expo and debutant edition of Fire ,Safety and Security expo are coincide with International Police Expo thus making a very comprehensive and powerful platform for all those who are responsible for Police modernization, equipment procurement and logistic and provisioning functionaries from all State Police Force, Central Armed Police Force, all three wings of Defense force and many more.

Mr. Bansal further told the press that Honorable Prime Minister Shri Narendra Modi ji is keen to modernize our Police Forces and to make them Smart police in view of his ambitious Smart Cities concept where policing will be done by modern equipments. Government of India very recently earmarked a fund of INR 25,000 Crores for Indian Polices for buying of modern equipment.

Almost all State Police are now using technology for safety and security of citizens of Nation. Police Stations are being modernized with CCTV, face recognition system and other technology for prompt detection of crime. Communication technologies are helping Police a lot for intercepting voice and control the crime before it happens. International Police Expo and Home Land Security Expo will give an opportunity to Police force to identify the best suited technology and equipment for them and to have one to one interaction with vendors of these technologies and equipments in view to know more on insight and to assess suitability.

Mr. V K Bansal further said that as per plan 100 Airports are set to be operational which needs a lots of safety and security equipment worth USD 61 billions. Besides Government is all set to incur approx. USD 400 Billion on infrastructure development like Highways, Railways, Airports and other pivotal installations, out of which a sizable money would be spent on Safety and Security related equipment.

4th International Police Expo, 2018 is going to be participated by companies from over 20 countries, with over 2000 senior Police Officers and delegations coming to attend the exhibition and conferences. The exhibition is India's annual event for display of cutting edge technology, modern firearms, surveillance, cyber security and forensics related products.

Two days show is all set to invite Director General of Police, Additional Director General of Police, Inspector General of Police, Dy. Inspector General of Police and other senior functionaries from State Police, Central Armed Police Force like

BSF,CRPF,CISF,SSB,ITBP etc. Home Land Security segment attracts Senior officers from all three services like Army, Air force and Navel organizations.

International Police Expo is also going to host the international delegation from Maldives Police where they are in process of sourcing some international technologies through this international congregation. It is imperative to say that International Police Expo has acclaimed the global attention in the line of Security domain.

For the very first time arms display by Molot-Oruzhie Ltd from Russia, which is a global leader in producing most modern firearms and supplying to various countries, are going to promote the utility of such firearms in modern warfare and counter terror operations. In other latest technology, Body Worn Camera are going to be displayed by Axon company from Australia which will help to record the incident. Israel's world known Mobile forensic technology offered by Cellebrite is going to help the crime investigation team an excellent helping hand. Luvo from Czech Republic is going to display the NATO approved guns which are well tested in various warfare.

Few other companies like Streamlight from USA will display emergency lights for disaster management, Atola Canada and Foster Freeman UK will be displaying the latest forensic solutions, Speed Gun for Traffic Management will be displayed by Lasertech USA, Suprema from Korea will be displaying the most sophisticated ID authentication for Airports.

Dr. Tapan Chakroborty, Executive Director, Foundation for Police Research, the co organizer of event said that in addition to the exhibition itself, International Police Expo attendees will have the opportunity to access a very exclusive conference stream on the theme of: Challenges in Combating Transnational Crimes and Terrorism will host unique content focusing on regional issues, from key industry members, academic contributors and high-ranking Police and Security personnel, etc.
